Pick up a pen hey, back to basics

Communication breakdown  
it's a take down  
Are you awake now or  
consumed  
By a fake clown?  
World Wide Web keep the  
spiders fed  
Looking at my feed  
Trolls everywhere but

knowledge  
supersedes  
At your  
fingertips  
Clicking all  
the keys to  
the locks  
Pandora's

box, open up  
Now you're on the clock not  
a second to lose  
Like your life shorter  
Addicted to a platform  
It's the calm before the storm  
(Get at me)  
If the grid goes down  
better be ready  
Emotional effects

time  
To get it on (Come on now)  
My style versatile said without

And then  
you know  
why I'm  
on the  
run  
This  
change  
of event  
results in  
a switch  
It's the

lateral movement of my vocal  
pitch  
It eliminates pressure on the  
haunted

around  
tactics so coy  
no choice but to  
tricks and w  
try to cross my  
gone do, Chuck

rhymes  
Which is what I want me  
And they only  
Lookin' over my shoulder, seein' what I  
write  
Hear what I say, when wonderin' why  
Why they ever compete on my level  
Uncle Jam's Army status is my domain  
Under my rhythm, my pattern of  
lectures

grid goes down?  
That's how you feel about it?  
Uncle Jam's Army is here  
Socially engineered anarchy induced

how they go p  
against the other  
against his brother  
against her mother  
you gonna do when t
